

SENTRY

SENTRY ECO - PEDAL OPERATED SANITISER DISPENSER

Due to high demand, we have developed a new entry level version of our popular Sentry Foot Operated hand sanitiser dispensers which will play a key role in the next phase of the current pandemic as we move into the next phase of reopening Britain post lockdown.

EASE OF OPERATION

"Hands Free" Pedal operated dispenser to prevent contamination! These entry level dispensers have a fully adjustable internal frame to suit your sanitiser bottle sizes (Max bottle size 105Ø x 500mm - not supplied)

SUITABLE FOR ALL LOCATIONS

Our hand sanitiser dispensers are available in a variety of finishes and materials, making them a very versatile solution for all types of indoor and outdoor locations. This is the perfect addition to all reception areas, staff kitchens and restrooms, schools, shop & supermarket entrances, pharmacies, walk-in centres, gyms, pubs & restaurants, staff car parks, cinemas, sport venues, etc

ENGINEERED TO LAST

Our economy dispensers are manufactured from powder coated mild steel. they come fitted with a large 280Ø x 6mm freestanding base plate c/w 3 x 11mm holes for additional security, if required. The units are supplied flat packed and are very easy to self-assemble (full installation manual supplied and video also available)

GREAT FEATURES

- Great entry level option for shops & workplaces
- Available Powder Coated Mild Steel (Blue as Standard)
- Units can be painted to any RAL colour to match company branding (minimum order quantity of 10+). Bespoke logo plate option also available
- These are manufactured in-house and are available for fast delivery
- Cost include delivery to mainland UK!

RRP: £120+ VAT (inc delivery)
